ED series 53 Drying ovens / Heating ovens

Heating oven with mechanical control

The strength of the BINDER ED series heating oven: routine drying and sterilization applications up to 300 °C (572 °F). Thanks to the gravity convection, thermal processes are highly efficient for this heating oven. A BINDER ED heating oven ensures fast, uniform drying.

Advantages:

- Fast, even tempering
 Wide temperature range
 Quality "Made in Germany"

Areas of application:

Biotechnology

Basic Research / **Research Institutes**

Human / Veterinary Medicine

Customer benefits

Features	Customer benefits	Characteristics
APT.line™	 Quick tempering Identical test conditions throughout the chamber interior Independent of specimen size and quantity 	 APT.line[™] for maximum precision Uniform circulation even under full load Homogeneous temperature conditions throughout specimen material
Temperature range	 Broad range of applications Short warm up times 	Standard up to 300 °C (572 °F) • Large power reserves
Inner chamber concept	 Maximum occupational safety Easy loading and unloading of specimen material Easy cleaning 	Inner chamber made of stainless steel • Very tight door closure with 2-point door latch • Low heat dissipation due to 60 mm (2.36 inch) insulation • Rack with tilt protection • No permanent fixtures
Standard equipment	Reliable, easy handling	Comprehensive standards • Microprocessor control • Ergonomically positioned controller. • RS 422 interface • PT 100 temperature sensor
Quality	 Reliable devices with long service lives Short delivery times Minimal maintenance and operating costs 	 Premium quality Highly automated Series production High-quality materials, state-of-the-art production technology High standard according to DIN 12880 (27-point measurement)
Accessories and Services	 Flexible solution in terms of size, type and equipment Optimal solution for numerous applications BINDER INDIVIDUAL for customer-specific solutions Worldwide BINDER Service 	Comprehensive product portfolio • Size 23 to 720 liters (0.7 - 25.7 cu.ft.) • Additional product lines with humidity, light, CO2 or vacuum • Voltage variants (UL) and certificates • Various options: Door with viewing window, access ports, reinforced shelves, Data Logger Kits • Worldwide service network

Performance characteristics

- Electronically controlled APT.line[™] preheating chamber assuring temperature accuracy and reproducible results
- Temperature range from 5 °C (9 °F) above ambient temperature to 300 °C (572 °F)
- Digital temperature setting with an accuracy of one degree
- DS control with integrated timer 0 to 99.59 hrs
- Independent adjustable temperature safety device class 2 (DIN 12880), with visual temperature alarm
- Adjustable ventilation by means of front ventilation flap slide and rear exhaust Ø 50 mm (2.0 inch)
- Optional RS 422 Interface for APT-COM™ Data Control System communication software
- Units up to 115 I (4.1 cu.ft.) are stackable
- 2 chrome-plated racks included
- BINDER technical specification conformance certificate

1) To 98% of the set value

All technical data are specified for units with standard equipment at an ambient temperature of 20 °C (68 °F) and a line voltage fluctuation of ±10%. The temperature data is determined in accordance to factory standard following DIN 12880, respecting the recommended wall clearances of 10% of the height, width and depth of the inner chamber. All figures are typical average values for series devices. We reserve the right to alter technical specifications at any time.

Options

Numerous access ports

With silicone plugs for introducing external measuring instruments into the chamber, access ports with 10 mm (0.39 inch), 30 mm (1.18 inch), 50 mm (1.97 inch), 100 mm (3.94 inch) diameters.

Door with window and interior lighting

For optimal process control in the inner chamber, available for all device sizes.

Door lock

Prevents unauthorized access to the process sequences in the chamber.

Calibration certificate & validation

BINDER can significantly reduce the workload in qualifying and validating devices. Nobody knows our devices as well and has as much experience in certifications as we do.
